

Quiz on The autonomous nervous system

1. What are the three functional components of the autonomic nervous system?

- A. Sympathetic, parasympathetic, and somatic
- B. Sympathetic, parasympathetic, and enteric
- C. Sympathetic, parasympathetic, and motor
- D. Sympathetic, parasympathetic, and sensory

2. What are the two main parts of the autonomic nervous system and their primary functions?

- A. Sympathetic part - conserves energy, Parasympathetic part - prepares the body for emergencies
- B. Sympathetic part - prepares the body for emergencies, Parasympathetic part - conserves and restores energy
- C. Sympathetic part - regulates involuntary structures, Parasympathetic part - controls voluntary movements
- D. Sympathetic part - controls voluntary movements, Parasympathetic part - regulates involuntary structures

3. What are the two main parts of the autonomic nervous system and their primary functions?

- A. Sympathetic part - conserves energy, Parasympathetic part - prepares the body for emergencies
- B. Sympathetic part - prepares the body for emergencies, Parasympathetic part - conserves and restores energy
- C. Sympathetic part - regulates involuntary structures, Parasympathetic part - controls voluntary movements
- D. Sympathetic part - controls voluntary movements, Parasympathetic part - regulates involuntary structures

4. What are the two main subdivisions of the peripheral nervous system (PNS)?

- A. The autonomic nervous system and the somatic nervous system
- B. The central nervous system and the peripheral nervous system
- C. The autonomic nervous system and the cerebellum
- D. The somatic nervous system and the cerebrum

5. What are the two main parts of the autonomic nervous system and what are their primary functions?

- A. Sympathetic part prepares the body for emergencies, Parasympathetic part conserves and restores energy
- B. Sympathetic part conserves and restores energy, Parasympathetic part prepares the body for emergencies

C. Sympathetic part inhibits the body's response, Parasympathetic part stimulates the body's response

D. Sympathetic part stimulates the body's response, Parasympathetic part inhibits the body's response

Answer Key

1. B
2. B
3. B
4. A
5. A
